Silicon N Channel IGBT High Speed Power Switching

R07DS0235EJ0300 (Previous: REJ03G1835-0200) Rev.3.00 Nov 17, 2010

#### Features

- Low collector to emitter saturation voltage  $V_{CE(sat)} = 1.4 \text{ V typ.}$  (at  $I_C = 30 \text{ A}$ ,  $V_{GE} = 15 \text{ V}$ ,  $Ta = 25^{\circ}C$ )
- Built in fast recovery diode in one package
- Trench gate and thin wafer technology
- High speed switching  $t_f = 80$  ns typ. (at  $I_C = 30$  A,  $V_{CE} = 400$  V,  $V_{GE} = 15$  V, Rg = 5  $\Omega$ ,  $Ta = 25^{\circ}C$ , inductive load)

#### Outline

#### **Absolute Maximum Ratings**

 $(Tc = 25^{\circ}C)$ Unit Item Symbol Ratings Collector to emitter voltage 600 V  $V_{CES}$  $\mathsf{V}_{\mathsf{GES}}$ Gate to emitter voltage ±30 V I<sub>C</sub> Note1 Tc = 25 °C 60 Collector current А Ic Note1 Tc = 100 °C 30 А ic(peak) Note1 Collector peak current 120 А i<sub>DF</sub>(peak) Note2 А Collector to emitter diode forward peak current 100 Collector dissipation 235.8 W Pc °C/W Junction to case thermal impedance θj-c 0.53 °C Junction temperature 150 Τj -55 to +150 °C Storage temperature Tstg

Notes: 1. Pulse width limited by safe operating area.

2. PW  $\leq$  5  $\mu$ s, duty cycle  $\leq$  1%

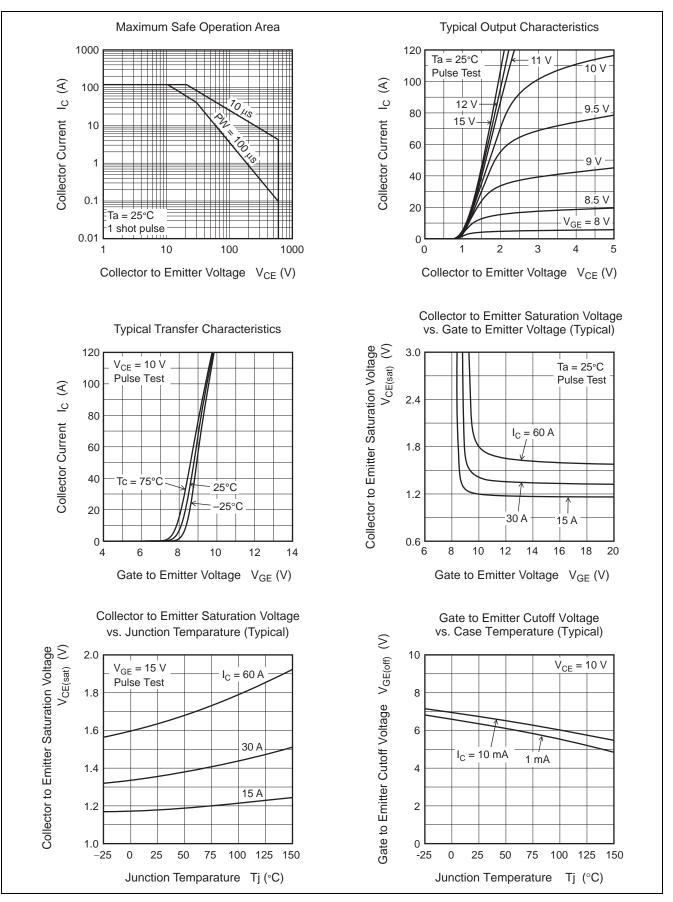

### **Electrical Characteristics**

						$(Tj = 25^{\circ}C)$
Item	Symbol	Min	Тур	Max	Unit	Test Conditions
Zero gate voltage collector current	I <sub>CES</sub>			100	μA	$V_{CE} = 600V, V_{GE} = 0$
Gate to emitter leak current	I <sub>GES</sub>			±1	μA	$V_{GE} = \pm 30 \text{ V}, \text{ V}_{CE} = 0$
Gate to emitter cutoff voltage	V <sub>GE(off)</sub>	4		8	V	$V_{CE} = 10V, I_{C} = 1 \text{ mA}$
Collector to emitter saturation voltage	V <sub>CE(sat)</sub>		1.4	1.82	V	$I_{C} = 30 \text{ A}, V_{GE} = 15 V^{Note3}$
	V <sub>CE(sat)</sub>	_	1.7	_	V	$I_{C} = 60 \text{ A}, V_{GE} = 15 V^{Note3}$
Input capacitance	Cies	_	1900	_	pF	V <sub>CE</sub> = 25 V
Output capacitance	Coes	_	93		pF	V <sub>GE</sub> = 0 V f = 1 MHz
Reverse transfer capacitance	Cres	_	33		pF	
Switching time	t <sub>d(on)</sub>	_	45		ns	I <sub>C</sub> = 30 A,
	tr	_	150		ns	$V_{CE} = 400 \text{ V}, V_{GE} = 15 \text{ V}$
	t <sub>d(off)</sub>		85		ns	$Rg = 5 \Omega^{Note3}$
	t <sub>f</sub>		80		ns	Inductive load
C-E diode forward voltage	V <sub>ECF1</sub>		1.6	2.1	V	$I_F = 20 \text{ A}^{\text{Note3}}$
	V <sub>ECF2</sub>		1.8		V	$I_F = 40 \text{ A}^{\text{Note3}}$
C-E diode reverse recovery time	t <sub>rr</sub>		140		ns	I <sub>F</sub> = 20 A
						di <sub>F</sub> /dt = 100 A/µs

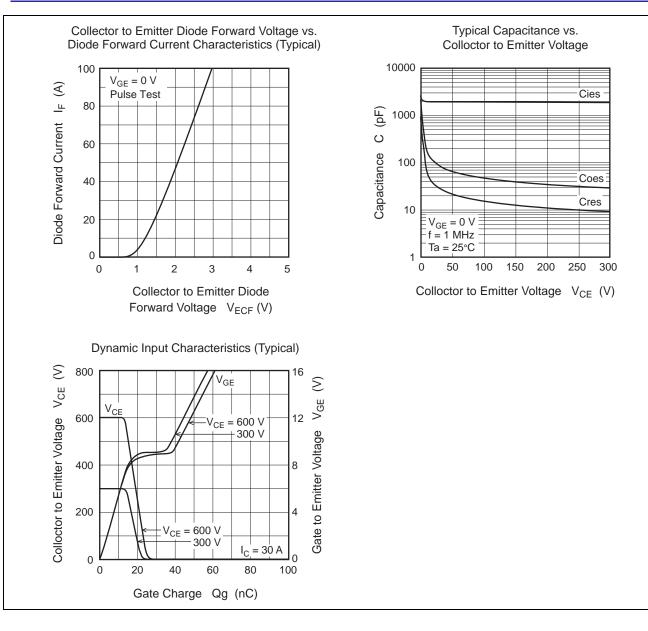

Notes: 3. Pulse test

#### Notice

- All information included in this document is current as of the date this document is issued. Such information, however, is subject to change without any prior notice. Before purchasing or using any Renesas Electronics products listed herein, please confirm the latest product information with a Renesas Electronics sales office. Also, please pay regular and careful attention to additional and different information to be disclosed by Renesas Electronics such as that disclosed through our website.
- Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
- 3. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part.
- 4. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
- 5. When exporting the products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations. You should not use Renesas Electronics products or the technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations.
- 6. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
- 7. Renesas Electronics products are classified according to the following three quality grades: "Standard", "High Quality", and "Specific". The recommended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below. You must check the quality grade of Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application categorized as "Specific" without the prior written consent of Renesas Electronics. Further, you may not use any Renesas Electronics product deviate the one of the in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for an application categorized as "Specific" or which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The recommender application to rease of the product for any application categorized as "Specific" or the which the product is not intended where you have failed to obtain the prior written consent of Renesas Electronics. The quality grade of each Renesas Electronics product is "Standard" unless otherwise expressly specified in a Renesas Electronics data sheets or data books, etc.
- "Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools personal electronic equipment; and industrial robots.
- "High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; safety equipment; and medical equipment not specifically designed for life support.
- "Specific": Aircraft; aerospace equipment; submersible repeaters; nuclear reactor control systems; medical equipment or systems for life support (e.g. artificial life support devices or systems), surgical implantations. or healthcare intervention (e.g. excision, etc.), and any other apolications or purposes that pose a direct threat to human life.
- 8. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltage range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
- 9. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or system manufactured by you.
- 10. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
- 11. This document may not be reproduced or duplicated, in any form, in whole or in part, without prior written consent of Renesas Electronics.
- 12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries.
- (Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.
- (Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
